

Early years practice procedures

09.8 Prime times – Snack-times and mealtimes

Children are supervised during mealtimes and always remain within sight and hearing of staff.

Snack times

- A 'snack' is prepared mid-morning and mid-afternoon and can be organised according to the discretion of the setting manager e.g. picnic on a blanket.
- Children may also take turns to help set the table. Small, lidded plastic jugs are provided with choice of milk or water.
- Children wash their hands before and after snack-time.
- Children are only offered full-fat milk until they are at least two years old because they may not get the calories they need from semi-skimmed milk. After the age of two, children can gradually move to semi-skimmed milk as a main drink, as long as they are eating a varied and balanced diet.
- Fruit or raw vegetables, such as carrot or tomato, are offered in batons, which children should be encouraged to help in preparing. Bananas and other foods are not cut as rounds, but are sliced to minimise a choking hazard.
- Portion sizes are gauged as appropriate to the age of the child.
- Biscuits should not be offered, but toast, rice cakes or oatcakes are good alternatives.
- Children arrive as they want refreshment and leave when they have had enough. Children are not made to leave their play if they do not want to have a snack.
- Staff join in conversation and encourage children's independence by allowing them to pour drinks, butter toast, cut fruit etc.

Mealtimes

- Tables are never overcrowded during mealtimes. Some social distancing is encouraged even though it is acknowledged that children will play in close proximity for the rest of the session.

- Children wash their hands and sit down as food is ready to be served.
- Children are encouraged to go and collect their packed lunch from the box they are kept in.
- Staff have their lunch with children and do not eat different food in front of children. Staff who are eating with the children role-model healthy eating and best practice at all times, for example not drinking cans of fizzy drinks in front of the children.
- Children are given time to eat at their own pace and are not hurried to fit in with adults' tasks and breaks. They are not made to eat what they do not like and are only encouraged to try new foods slowly.
- In order to protect children with food allergies or specific dietary requirements, children are discouraged from sharing and swapping their food with one another.
- Mealtimes are relaxed opportunities for social interaction between children and the adults who care for them.
- After lunch children are encouraged to take their plates to the kitchen entrance and help wipe the table and sweep the floor.
- Children go to the bathroom and wash their hands after lunch in their key groups. Cleaning teeth no sooner than 1 hour after lunch is recommended where hygiene procedures pose no risk (see procedure 04.6 Oral health)/ It is not always recommended for groups in shared premises.
- Information for parents is displayed on the parent's notice board, including:
 - Ten Steps for Healthy Toddlers https://infantandtoddlerforum.org/media/upload/pdf-downloads/HR_toddler_booklet_green.pdf
